WEATHER KEY POINTS

01/18/22 - 01/24/22

Tuesday - Monday

- Areas of locally dense fog will be seen during the overnight and morning hours across the Central Valley and far northern California mountain valleys through mid and late week
- Scattered light showers will also continue across southern California through Tuesday night, with additional rainfall amounts less than one-tenth of an inch. No significant impacts are expected from this precipitation.
- Dry and mild weather will return statewide Wednesday through early next week, with locally gusty offshore winds expected at times across portions of the Central Valley, Sierra, and southern California mountains and foothills Thursday through Saturday
